## BUSINESS ANALYST

+1 (469) 463-7768 | akshay.w@mymailworks.com | [LinkedIn](#)

### SUMMARY

Business Analyst with 6+ years of experience driving end-to-end requirements gathering, process optimization, and data-driven decision-making across diverse industries. Expertise spans Agile and Waterfall methodologies, advanced SQL and Python analytics, and designing interactive dashboards that translate complex data into actionable insights. Skilled in bridging business needs with technical solutions through process modeling, stakeholder engagement, and comprehensive documentation, consistently enhancing operational efficiency and project outcomes. Proven ability to analyze workflows, validate systems, and deliver measurable improvements in productivity, revenue impact, and stakeholder satisfaction.

### EXPERIENCE

#### S&P Global, USA | Business Analyst

Mar 2025 - Present

- Directed end-to-end requirement discovery sessions, translating stakeholder expectations into structured BRD, FRD documentation.
- Leveraged Jira and Azure DevOps for sprint tracking, improving cross-functional transparency and task completion accuracy.
- Orchestrated Agile ceremonies, ensuring backlog prioritization aligned with revenue targets, improving delivery timelines by 18%.
- Evaluated financial datasets using advanced SQL and Python, uncovering insights that influenced 12 percent revenue growth.
- Formulated data visualization dashboards in Power BI and enabling executives to monitor KPIs in real-time.
- Streamlined business workflows through BPM techniques, reducing operational redundancies and cutting processing time.
- Spearheaded UAT coordination efforts, validating acceptance criteria while minimizing post-deployment defects by 27%.
- Produced detailed process maps and UML diagrams using Visio and Lucidchart to support technical solution alignment.
- Synthesized complex datasets into executive-ready insights, enabling strategic decision-making and boosting operational efficiency.
- Conducted gap and impact assessments, identifying process inefficiencies and recommending scalable system improvements across departments.

#### Citius Tech, India | Business Analyst

May 2021 - Jul 2023

- Facilitated requirement elicitation workshops with healthcare stakeholders, documenting user stories, refining acceptance criteria.
- Generated wireframes and mockups through Miro and Confluence, enabling clearer visualization of system enhancements.
- Administered SQL-based data extraction and analysis, supporting clinical reporting systems and improving reporting accuracy.
- Designed interactive dashboards using Power BI and enhancing visibility into healthcare KPIs and patient metrics.
- Executed feasibility and risk assessments, ensuring compliance with regulatory standards and reducing project risks significantly.
- Structured As-Is and To-Be process models, driving workflow optimization initiatives that improved turnaround time by 17%.
- Coordinated with QA teams to define test scenarios and oversee BVT processes, ensuring reliable system functionality.
- Monitored project progress using Smartsheet and Trello, ensuring milestone adherence and reducing delivery delays by 14%.
- Applied root cause analysis techniques to resolve production issues, enhancing system stability and reducing recurring defects.
- Consolidated stakeholder feedback into actionable insights, supporting system upgrades that improved user satisfaction scores significantly.

#### Maruti Techlabs, India | Business Analyst

Jan 2018 - Apr 2021

- Gathered and documented business requirements through interviews and surveys, ensuring alignment with client expectations.
- Drafted comprehensive BRD and FRD documents, enabling seamless communication between technical teams and stakeholders.
- Mapped business processes with BPM, identifying inefficiencies and recommending cost-saving improvements.
- Analyzed datasets using Excel and VBA, generating reports that improved operational decision-making efficiency by 16%.
- Assisted Agile teams by refining user stories and maintaining backlog hygiene, ensuring smooth sprint execution cycles.
- Created ER diagrams and data models, supporting database design and improving data integrity across enterprise systems.
- Evaluated system performance through KPI tracking, enabling data-driven recommendations that increased productivity by 13%.
- Supported UAT cycles by preparing test cases and coordinating feedback, ensuring system readiness before deployment phases.
- Conducted SWOT and cost-benefit analyses, guiding stakeholders toward informed strategic decisions and investment planning.
- Maintained detailed project documentation within Confluence, ensuring traceability and compliance with organizational standards consistently.

### SKILLS

**Methodologies:** SDLC, Agile/Scrum, Waterfall, Kanban, Business Process Modeling (BPM)

**Languages & Querying:** SQL (Advanced), Python (for Data Analysis), Excel VBA

**Documentation & Artifacts:** FRD, BRD, SRS, User Stories, Process Flows, Wireframes, Mockups, Decision Matrices

**Project & Collaboration Tools:** Jira, Confluence, Trello, MS Teams, Miro, Azure DevOps, Smartsheet

**Data Visualization & Analysis Tools:** Power BI, Tableau, Python (Pandas, NumPy, Matplotlib, Seaborn), Excel (Pivot Tables, VLOOKUP), Tableau, Power BI (DAX, Power Query), Visio, Lucidchart, Google Looker Studio, Sisense, Cost/benefit analysis, Impact analysis, GAP analysis, Risk analysis, SWOT analysis, Root Cause Analysis, Feasibility Analysis, Requirements Elicitation, Acceptance Criteria, Process Mapping, Change Management

**Business & Systems Analysis Skills:** Requirements Elicitation (Interviews, Surveys, Workshops), Process Improvement (As-Is/To-Be Analysis), Data Modeling (ER Diagrams, UML), Stakeholder Analysis (RACI Matrix), Metrics & KPIs

**Testing & Validation:** UAT Coordination, Test Scenarios, BVT (Business Verification Testing), Post-Implementation Reviews

**ERP & Enterprise Tools:** Salesforce, ServiceNow, SAP, Oracle ERP, Dynamics 365

### EDUCATION

**Master in Information Technology Management** | University of Texas at Dallas, USA

**Bachelor in Information Technology** | Dr. A. P. J. Abdul Kalam Technical University, Lucknow, India
